# Cultural Children of Europe

The aim of Cultural Children of Europe (CCE) is to provide **pedagogues, teachers, artists, cultural mediators**, and scientists with the tools to give **children aged 0-8** the best access to art and to work with artistic expressions in their everyday lives

# CCE– Organisation diagram

# Vision

- Cultural Children of Europe rethink European children's culture, so it is based on children's citizenship
- Children in day care and early school years unfolds in a culture of participation, characterized by children's involvement in experimental aesthetic processes in art and culture
- Children meet adults who bring their own resources and skills into play by rethinking and developing everyday culture with the children
- Cultural Children of Europe creates a sustainable framework for European knowledge sharing, partnerships and network based development

# Objectives

- Cultural Children of Europe frames and supports development opportunities in work with children, art and culture, that recognizes children's participation as citizens
- Cultural Children of Europe provides 0-8 year old children the opportunity to explore and experiment with cultural and artistic activities in day care and early school years
- The professional adults in Cultural Children of Europe actively participate in interdisciplinary network where they are inspired to rethink and develop their mindset and everyday practice
- Cultural Children of Europe will provide all the participating professional insight into the use of the project's methods, experiences and documentation, which will in turn strengthen and build on the participants' own professional knowledge
